Education

Far Eastern University – Institute of Technology   Sampaloc, Manila

Bachelor of Science in Information Technology Specializing in Web and Mobile Application   2025

- Thesis: VacantVue - An Arduino-Based Parking Spot Availability Detection System
- 2TSY2122 CCSMA Dean's Lister

Experience

Chris Photography   Caloocan City, Metro Manila

Associate Photo Editor   May 2021 - Jul 2021

- Retouched and enhanced photos using Adobe Photoshop (Creative Suite), ensuring professional image quality and consistent branding.
- Collaborated with clients, demonstrating clear communication and ability to explain technical edits.
- Curated, cropped, and refined shots for polished, client-ready delivery.
- Guaranteed all outputs met both aesthetic and technical quality benchmarks with attention to detail.
- Organized packaging and coordinated in-store pickups, ensuring a professional and client-friendly presentation.

Abiva Publishing House Inc.   Quezon City, Metro Manila

Internship   January 2025 – July 2025

- Converted PDF books into EPUB using HTML5 and CSS3, ensuring responsive design across devices.
- Met chapter-based deadlines with revision cycles.
- Collaborated with supervisors to troubleshoot and resolve formatting issues, demonstrating problem-solving and attention to detail.

Projects

VacantVue - An Arduino-Based Parking Spot Availability Detection System   Capstone Project

Project manager   January 2024 – July 2025

- Led a team to design and develop a parking management POS system with web and mobile apps for real-time reservations, payments, and admin oversight.
- Utilized PHP and MySQL for backend operations and website performance optimization.
- Integrated the PayMongo API to provide secure and reliable digital payment options for users.
- Developed Arduino-based sensors for automated parking slot detection, enabling real-time availability tracking.
- Showcased leadership, collaboration, and effective escalation/follow-up on technical issues.
